Message from the CEO

Our Code – the foundation we stand on

Always Explore, Create Together, Keep Promises, Be Respectful

Our behaviours summarise what the dtac culture is and what we want it to be. They are both aspirational and descriptive, because our everyday business is a balancing act. We need to explore, innovate and find new solutions, but we also need to deliver with precision, efficiency and reliability. This ambidexterity is the key challenge – and the key to continued success – for dtac today.

Our Code of Conduct – a baseline and foundation

The Code is also about how we do things in dtac. But where our behaviours outline attitudes we strive for, the Code is prescriptive – it's what we expect and require from each and every one of us, regardless of our designation, role or location. Our Code guides us through day-to-day dilemmas. It is the basis for how we behave as guardians of dtac's integrity.

The four Code Principles are designed to set clear expectations regarding our business conduct and to help us deal with challenges we may face at work. The Code provides clear rules and guidance, with further reference to relevant policy areas. But it cannot cover all possible events; it is a tool to help us make the right decision.

My expectation to you is simple: take time to go through and reflect on the dilemmas you may face, and keep coming back to these reflections regularly. This is also why we are all required to renew our commitment to the Code every year.

Alexandra Reich
CEO
dtac

Why we have a Code of Conduct

Being a high performing company is not only about performance, goals and achievement. It is also about how we behave towards each other and the world around us. We want to be a trusted partner – to our customers, shareholders and colleagues, and to our Business Partners and the communities where we operate. Our business depends on this trust and we are committed to conducting our business in a responsible, ethical and lawful manner. The Code of Conduct is the foundation of our corporate culture and sets out high standards of integrity on how we do business. Everyone in dtac must follow these standards. We make decisions every day that can influence our reputation. An uninformed decision, even made with best intentions, can damage our reputation.

The Code Principles set out the core requirements for our conduct in dtac. The Code Sections include specific requirements and guidance for critical risk areas. The Code of Conduct helps us all make informed decisions and explains where to go for more information and guidance.

Code Principles

The Code Principles form the foundation of our ethical culture and define the core of our business conduct.

We play by the rules

We follow laws, regulations and our policies and, if in conflict, we uphold the highest standard

We are accountable for our actions

We actively seek information, understand our responsibilities, and recognize our wider impact on the societies in which we operate

We are transparent and honest

We are open and truthful about our challenges

We speak up

We ask questions when in doubt and raise concerns without concern of retaliation

Who has to follow the Code

The Code of Conduct applies to all employees and everyone acting on behalf of dtac, including the Board of Directors. We expect our vendors, suppliers, contractors and other Business Partners to commit and uphold the same high ethical standards that we follow ourselves.

How to use the Code

The four Code Principles and specific requirements contained in the Code Sections form our basic obligations. Additional requirements in our Policies and subsidiaries must also be understood and followed. At the end of each Section of the Code you will find links to applicable Policies and Manuals as well as links to available guidelines, practical tools, training material and other helpful resources.

The Code sets clear requirements to manage our day-to-day operations and to guide us when we are confronted with challenges and ethical dilemmas. You may always contact your line manager or the Compliance Function when you have questions or concerns. You may also seek advice using the Integrity Hotline, anonymously if you would like.

The Code cannot cover every dilemma or situation we will face in our business. There will continue to be business challenges and uncertain legal and regulatory developments. In such cases, we are not relieved from the obligation to uphold the highest ethical standard, but we should seek guidance to help us make the right decision. Further to setting out our own ethical standards, the Code Principles require us to comply with applicable laws and regulations. You should always familiarize yourself with the laws where you operate and seek guidance from the Legal Function if you have questions.

What is expected from us as employees

As an employee of dtac, you are expected to:

- always act with high integrity

- know when and how to seek further guidance
- cooperate fully and transparently in all compliance investigations
- avoid any practices that may be unlawful, unethical or harm dtac’s reputation

What is expected from our leaders

How to Speak Up

One of the Code Principles is that we “speak up.” We ask our managers and the Compliance Function when we have questions about whether activities are ethical or compliant with our Code, and we always challenge and report activities that we believe may breach our Code or applicable law. Through reporting we enable dtac to keep its promise to operate legally and ethically and we help the company to protect its good reputation. It is a responsibility that we share as dtac’s employees.

It sometimes takes courage to come forward and share your concerns. If you are not comfortable discussing or reporting an issue to your manager or the Compliance Function, you may use the **Integrity Hotline** which is available to all employees and Business Partners. The Integrity Hotline is designed to protect the privacy of individuals who report a concern, and individuals who are the subject of a reported concern, through a reporting channel that is operated by an independent company. All reports are treated as confidential and a very restricted number of people are allowed access. The channel is always open and is available in most local languages. You may choose to remain anonymous. Your identity is kept confidential unless you agree otherwise.

All reported concerns are taken seriously and given fair and objective follow-up. The reports are first received and reviewed by Investigation Department. Minor or routine cases are transferred to the relevant line management or appropriate function, though Investigation Department will retain governance of the case, ensuring that appropriate and timely actions are taken. In cases which present serious allegations or concerns, Investigation department will undertake an independent investigation to clarify relevant facts. All functions are required to maintain all information in the strictest confidence in order to ensure the integrity of the process.

As important part of our compliance program is taking effective corrective action and, where appropriate, employee discipline. In all cases, the Compliance Function supports management on resolving the investigated concerns to determine whether disciplinary or corrective actions are required. Anyone who violates the law, the Code or a dtac Policy or Manual may be subject to disciplinary action, up to and including termination of employment. Such violations may damage dtac’s reputation and result in commercial loss, and violations of the law may expose dtac, and even the individual violator, to fines, penalties, damages and, in some cases, imprisonment.

It is important to remember that we can all report suspected unethical or illegal behaviour without concern of retaliation. dtac does not tolerate retaliation of any kind against those who speak up in good faith.
